

Extension Tube

Variable Types Available for Different Use

Specifications

- Precisely designed parts enabling easy connection with no leakage
Many types satisfying various requirements.
- Sterilization : ETO

Product Range

Model	Capacity (mL)	Tube dimension			Remarks	Application
		I.D. (mm)	O.D. (mm)	Length (mm)		
EX-S	1.0	2.9	4.9	15	Larger tube diameter. With Luter slip connector.	Mainly dialysis use. Connection with AVF, PSV or retention cannula, etc.
EX-M	2.8	2.9	4.9	45
