# SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

Version 9.8 Revision Date 04.11.2024 Print Date 30.03.2025 GENERIC EU MSDS - NO COUNTRY SPECIFIC DATA - NO OEL DATA

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	<b>Product identifiers</b> Product name	:	MSMLS Plate 6 (Lipophilic)
	Product Number Brand REACH No.	: :	MSMLS06 Sigma This product is a mixture. REACH Registration Number see section 3.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	:	Laboratory chemicals, Manufacture of substances
Uses advised against	:	For R&D use only. Not for pharmaceutical, household or other
		uses.

#### 1.3 Details of the supplier of the safety data sheet :

Company

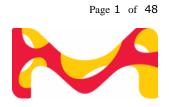

#### 1.4 **Emergency telephone**

Emergency Phone # +(44)-870-8200418 (CHEMTREC (GB)) : +(353)-19014670 (CHEMTREC Ireland) 001-803-017-9114 (CHEMTREC India)

# **SECTION 2: Hazards identification**

2.1	<b>Classification of the substance or</b> Acute toxicity, (Category 4)	<b>mixture</b> H302: Harmful if swallowed.
	Acute toxicity, (Category 1)	H310: Fatal in contact with skin.
	Skin irritation, (Category 2)	H315: Causes skin irritation.
	Serious eye damage, (Category 1)	H318: Causes serious eye damage.
	Skin sensitization, (Category 1)	H317: May cause an allergic skin reaction.
	Germ cell mutagenicity, (Category 2)	H341: Suspected of causing genetic defects.
	Carcinogenicity, (Category 2)	H351: Suspected of causing cancer.

Sigma- MSMLS06

Long-term (chronic) aquatic hazard, (Category 2)

H411: Toxic to aquatic life with long lasting effects.

# 2.2 Label elements

# Labelling according Regulation (EC) No 1272/2008

Pictogram

Signal Word	Danger
Hazard Statements H302 H310 H315 H317 H318 H341 H351 H411	Harmful if swallowed. Fatal in contact with skin. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. Suspected of causing genetic defects. Suspected of causing cancer. Toxic to aquatic life with long lasting effects.
Precautionary Statements P264 P273 P280	Wash skin thoroughly after handling. Avoid release to the environment. Wear protective gloves/ protective clothing/ eye protection/ face protection.
P301 + P312	IF SWALLOWED: Call a POISON CENTER/ doctor if you feel unwell.
P302 + P352 + P310	IF ON SKIN: Wash with plenty of water. Immediately call a POISON CENTER/ doctor.
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Supplemental Hazard Statements	none

Supplemental Hazard none Statements

# 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# Ecological information:

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. Toxicological information:

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

\*A registration number is not available for this substance as the substance or its use are exempted from registration according to Article 2 REACH Regulation (EC) No 1907/2006, or the annual tonnage does not require a registration.

For the full text of the H-Statements mentioned in this Section, see Section 16.

# SECTION 4: First aid measures

# 4.1 Description of first-aid measures

# **General advice**

Consult a physician. Show this material safety data sheet to the doctor in attendance. First aiders need to protect themselves. Show this material safety data sheet to the doctor in attendance.

# If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.After inhalation: fresh air. Call in physician.

# In case of skin contact

Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower. Call a physician immediately.

# In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.After eye contact: rinse out with plenty of water. Immediately call in ophthalmologist. Remove contact lenses.

Sigma- MSMLS06

Page 7 of 48

# If swallowed

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.After swallowing: immediately make victim drink water (two glasses at most). Consult a physician.

# 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

**4.3 Indication of any immediate medical attention and special treatment needed** No data available

# **SECTION 5: Firefighting measures**

# 5.1 Extinguishing media

### Suitable extinguishing media

Water Foam Carbon dioxide (CO2) Dry powder

### Unsuitable extinguishing media

For this substance/mixture no limitations of extinguishing agents are given.

# 5.2 Special hazards arising from the substance or mixture

Carbon oxides Nitrogen oxides (NOx) Sulfur oxides Oxides of phosphorus Hydrogen chloride gas Potassium oxides Sodium oxides Lithium oxides Lithium oxides Mixture with combustible ingredients. Vapors are heavier than air and may spread along floors. Development of hazardous combustion gases or vapours possible in the event of fire.

# 5.3 Advice for firefighters

Wear self-contained breathing apparatus for firefighting if necessary.Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

# 5.4 Further information

Use water spray to cool unopened containers.Use water spray to cool unopened containers.Suppress (knock down) gases/vapors/mists with a water spray jet. Prevent fire extinguishing water from contaminating surface water or the ground water system.

#### **SECTION 6: Accidental release measures**

# 6.1 Personal precautions, protective equipment and emergency procedures

Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. Advice for non-emergency personnel: Avoid generation and inhalation of dusts in all circumstances. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8.

Sigma- MSMLS06

Page 8 of 48

# 6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.Do not let product enter drains.

# 6.3 Methods and materials for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).Cover drains. Collect, bind, and pump off spills. Observe possible material restrictions (see sections 7 and 10). Take up carefully. Dispose of properly. Clean up affected area. Avoid generation of dusts.

# 6.4 Reference to other sections

For disposal see section 13.

# SECTION 7: Handling and storage

# 7.1 Precautions for safe handling

# Advice on safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist.Work under hood. Do not inhale substance/mixture.

# Advice on protection against fire and explosion

Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.

### Hygiene measures

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance. For precautions see section 2.2.

# 7.2 Conditions for safe storage, including any incompatibilities

# Storage conditions

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Keep locked up or in an area accessible only to qualified or authorized persons. **Storage stability**Recommended storage temperature -20 °C

# Storage class

Storage class (TRGS 510): 3: Flammable liquids

# 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

Page 9 of 48

Sigma- MSMLS06

# SECTION 8: Exposure controls/personal protection

8.1 Control parameters

# Ingredients with workplace control parameters

# 8.2 Exposure controls

# Personal protective equipment

# Eye/face protection

Tightly fitting safety goggles. Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Tightly fitting safety goggles

# **Skin protection**

The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

# **Body Protection**

Complete suit protecting against chemicals, Flame retardant antistatic protective clothing., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. protective clothing

# **Respiratory protection**

Where risk assessment shows air-purifying respirators are appropriate use a fullface respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

required when dusts are generated.

Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system.

Recommended Filter type: Filter type P3

The entrepeneur has to ensure that maintenance, cleaning and testing of respiratory protective devices are carried out according to the instructions of the producer. These measures have to be properly documented.

# **Control of environmental exposure**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided. Do not let product enter drains.

## SECTION 9: Physical and chemical properties 9.1 Information on basic physical and chemical properties

s) Explosive properties No data available

- t) Oxidizing properties No data available
- 9.2 Other safety information No data available

Sigma- MSMLS06

Page 11 of 48

# **SECTION 10: Stability and reactivity**

# **10.1 Reactivity**

The following applies in general to flammable organic substances and mixtures: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

# **10.2 Chemical stability**

The product is chemically stable under standard ambient conditions (room temperature) . Stable under recommended storage conditions.

# **10.3** Possibility of hazardous reactions

Violent reactions possible with:

# 10.4 Conditions to avoid

Heat, flames and sparks. Heat, flames and sparks. no information available

- **10.5 Incompatible materials** Strong oxidizing agents
- **10.6 Hazardous decomposition products** In the event of fire: see section 5

# SECTION 11: Toxicological information

# 11.1 Information on toxicological effects

# Mixture

# Acute toxicity

Acute toxicity estimate Oral - 1,806 mg/kg (Calculation method) Symptoms: Irritations of mucous membranes in the mouth, pharynx, oesophagus and gastrointestinal tract. Acute toxicity estimate Inhalation - 4 h - > 5 mg/l - dust/mist(Calculation method)

Symptoms: Possible symptoms:, mucosal irritations Acute toxicity estimate Dermal - 42 mg/kg (Calculation method)

**Skin corrosion/irritation** Remarks: Mixture causes skin irritation.

**Serious eye damage/eye irritation** Remarks: Mixture causes serious eye damage.

**Respiratory or skin sensitization** Mixture may cause an allergic skin reaction.

# Germ cell mutagenicity

Evidence of genetic defects.

# Carcinogenicity

Evidence of a carcinogenic effect.

# **Reproductive toxicity**

Sigma- MSMLS06

Page 12 of 48

**Specific target organ toxicity - single exposure** No data available

Specific target organ toxicity - repeated exposure No data available

Aspiration hazard No data available

# **11.2 Additional Information**

# **Endocrine disrupting properties**

# Product:

Assessment

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Other dangerous properties can not be excluded.

This substance should be handled with particular care.

Handle in accordance with good industrial hygiene and safety practice.

# Components

# 3-Hydroxyphenyl acetate

# **Acute toxicity**

LD50 Oral - 500.1 mg/kg Inhalation: No data available Dermal: No data available LD50 Intraperitoneal - Mouse - 400 mg/kg Remarks: Behavioral:Somnolence (general depressed activity). Behavioral:Tremor. Behavioral:Ataxia.

Skin corrosion/irritation

No data available

(Draize Test)

**Serious eye damage/eye irritation** Eyes - Rabbit Result: Severe eye irritation

**Respiratory or skin sensitization** No data available

Germ cell mutagenicity No data available

Carcinogenicity No data available

**Reproductive toxicity** No data available

**Specific target organ toxicity - single exposure** Inhalation - May cause respiratory irritation.

Specific target organ toxicity - repeated exposure No data available

Aspiration hazard No data available

### Sodium 3-methyl-2-oxovalerate

#### **Acute toxicity**

Oral: No data available Inhalation: No data available Dermal: No data available

Skin corrosion/irritation No data available

#### Serious eye damage/eye irritation

Remarks: Causes serious eye irritation. The value is given in analogy to the following substances: 3-methyl-2-oxovaleric acid

# Respiratory or skin sensitization

No data available

Germ cell mutagenicity No data available

#### Carcinogenicity

No data available

#### **Reproductive toxicity** No data available

Specific target organ toxicity - single exposure No data available

**Specific target organ toxicity - repeated exposure** No data available

#### **Aspiration hazard** No data available

Sigma- MSMLS06

# Manganese(IV) oxide

## **Acute toxicity**

Acute toxicity estimate Oral - 500.1 mg/kg (Expert judgment) Acute toxicity estimate Inhalation - 1.6 mg/l - dust/mist (Expert judgment) Dermal: No data available

# Skin corrosion/irritation

Skin - Rabbit Result: No skin irritation - 4 h (OECD Test Guideline 404)

# Serious eye damage/eye irritation

Eyes - Rabbit Result: No eye irritation - 72 h (OECD Test Guideline 405)

# Respiratory or skin sensitization

Local lymph node assay (LLNA) - Mouse Result: negative (OECD Test Guideline 429)

#### Germ cell mutagenicity No data available

# Carcinogenicity

No data available

# **Reproductive toxicity**

No data available

Specific target organ toxicity - single exposure No data available

# Specific target organ toxicity - repeated exposure

Inhalation - May cause damage to organs through prolonged or repeated exposure. - Brain

# Aspiration hazard

No data available

# hydroquinone

#### **Acute toxicity**

LD50 Oral - Rat - female - 367.3 mg/kg (OECD Test Guideline 401) Acute toxicity estimate Oral - 367.3 mg/kg (ATE value derived from LD50/LC50 value) Inhalation: No data available LD50 Dermal - Rabbit - male and female - > 2,000 mg/kg (OECD Test Guideline 402)

#### Skin corrosion/irritation

Skin - Rabbit Result: No skin irritation - 24 h Remarks: (ECHA)

Sigma- MSMLS06

The life science business of Merck operates as MilliporeSigma in the US and Canada

Page 35 of 48

# Serious eye damage/eye irritation

Remarks: Causes serious eye damage. (Regulation (EC) No 1272/2008, Annex VI)

Respiratory or skin sensitization

Local lymph node assay (LLNA) - Mouse Result: positive (OECD Test Guideline 429)

## Germ cell mutagenicity

Suspected of causing genetic defects. Test Type: Ames test Test system: S. typhimurium **Result:** negative Test Type: Chromosome aberration test in vitro Test system: Human lymphocytes Result: negative Test Type: In vitro mammalian cell gene mutation test Test system: mouse lymphoma cells Result: positive Test Type: Chromosome aberration test in vitro Test system: Chinese hamster ovary cells Result: negative Remarks: (ECHA) Method: OECD Test Guideline 489 Species: Rat - male and female Result: negative Method: OECD Test Guideline 488 Species: Mouse - male Result: negative Method: OECD Test Guideline 478 Species: Rat - male Result: negative Method: OECD Test Guideline 474 Species: Mouse - male and female - Red blood cells (erythrocytes) Result: positive Species: Mouse - male - Red blood cells (erythrocytes) Result: positive Remarks: (ECHA)

#### Carcinogenicity

Suspected of causing cancer.

The life science business of Merck operates as MilliporeSigma in the US and

**Reproductive toxicity** No data available

Specific target organ toxicity - single exposure No data available

#### Specific target organ toxicity - repeated exposure

**Aspiration hazard** No data available

#### **Benzyl alcohol**

#### **Acute toxicity**

LD50 Oral - Rat - male - 1,620 mg/kg Remarks: (ECHA) LC50 Inhalation - 4 h - 11 mg/l - dust/mist LC50 Inhalation - Rat - male and female - 4 h - > 4.178 mg/l - aerosol (OECD Test Guideline 403) Remarks: (Regulation (EC) No 1272/2008, Annex VI) Dermal: No data available

#### Skin corrosion/irritation

Skin - Rabbit Result: No skin irritation - 4 h (OECD Test Guideline 404)

#### Serious eye damage/eye irritation

Eyes - Rabbit Result: irritating (OECD Test Guideline 405)

#### **Respiratory or skin sensitization**

Maximization Test Result: negative (OECD Test Guideline 406)

#### Germ cell mutagenicity

Method: OECD Test Guideline 474 Species: Mouse - male - Red blood cells (erythrocytes) Result: negative

Carcinogenicity No data available

**Reproductive toxicity** No data available

Specific target organ toxicity - single exposure No data available

Specific target organ toxicity - repeated exposure No data available

### Aspiration hazard

No data available

#### phenylacetaldehyde

#### **Acute toxicity**

LD50 Oral - Rat - 1,550 mg/kg (OECD Test Guideline 401) Inhalation: No data available LD50 Dermal - Rabbit - > 5,000 mg/kg Remarks: (RTECS)

#### Skin corrosion/irritation

No data available

Sigma- MSMLS06

The life science business of Merck operates as MilliporeSigma in the US and Canada

Page 37 of 48

# Serious eye damage/eye irritation

Remarks: No data available

#### **Respiratory or skin sensitization** No data available

#### Germ cell mutagenicity

Test Type: reverse mutation assay Test system: TA1535 Result: negative Test Type: reverse mutation assay Test system: E. coli Result: negative

#### Carcinogenicity

No data available

#### **Reproductive toxicity** No data available

Specific target organ toxicity - single exposure No data available

#### Specific target organ toxicity - repeated exposure

#### Aspiration hazard

No data available

#### Pyruvaldehyde

#### Acute toxicity

LD50 Oral - Rat - male and female - 1,380 mg/kg (OECD Test Guideline 401) LC50 Inhalation - Rat - male and female - 4 h - > 13.6 mg/l - Aerosol (OECD Test Guideline 403) Dermal: No data available

#### Skin corrosion/irritation

Skin - Rabbit Result: No skin-irritant effect in animal experiments. - 4 h (OECD Test Guideline 404)

#### Serious eye damage/eye irritation

Eyes - Rabbit Result: Irreversible effects on the eye (OECD Test Guideline 405)

#### **Respiratory or skin sensitization**

Maximization Test - Guinea pig Result: positive (OECD Test Guideline 406) Remarks: The value is given in analogy to the following substances: Glyoxazal

#### Germ cell mutagenicity Suspected of causing genetic defects.

# Carcinogenicity

No data available

#### **Reproductive toxicity** No data available

Sigma- MSMLS06

Specific target organ toxicity - single exposure No data available

**Specific target organ toxicity - repeated exposure** No data available

Aspiration hazard

No data available

#### **SECTION 12: Ecological information**

#### 12.1 Toxicity

Mixture No data available

- **12.2 Persistence and degradability** No data available
- **12.3 Bioaccumulative potential** No data available

#### 12.4 Mobility in soil

No data available

#### 12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

#### 12.6 Endocrine disrupting properties <u>Product:</u>

Assessment

: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### 12.7 Other adverse effects

Very toxic to aquatic life with long lasting effects.

#### Components

#### 3-Hydroxyphenyl acetate

No data available

1-Methyl-6,7-dihydroxy-1,2,3,4-tetrahydroisoquinoline hydrobromide No data available

#### 3-Hydroxybenzoic acid

Toxicity to algae

Growth inhibition EC50 - Scenedesmus quadricauda (Green algae) - > 10 mg/l - 13 d

#### **Itaconic acid**

### SECTION 13: Disposal considerations

#### **13.1 Waste treatment methods**

#### Product

Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company.

#### **Contaminated packaging**

Dispose of as unused product.

Sigma- MSMLS06

Page 45 of 48

#### **SECTION 15: Regulatory information**

# **15.1** Safety, health and environmental regulations/legislation specific for the substance or mixture

This material safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.

#### Authorisations and/or restrictions on use

#### **National legislation**

Seveso III: Directive 2012/18/EU of the H1 ACUTE TOXIC European Parliament and of the Council on the control of major-accident hazards involving dangerous substances. E2 ENVIRONMENTAL HAZARDS

**Other regulations** Observe work restrictions regarding maternity protection in accordance to Dir 92/85/EEC or stricter national regulations where applicable.

Take note of Dir 94/33/EC on the protection of young people at work.

#### **15.2 Chemical Safety Assessment**

For this product a chemical safety assessment was not carried out

#### **SECTION 16: Other information**

#### Full text of H-Statements

H225	Highly flammable liquid and vapor.
H272	May intensify fire; oxidizer.
H290	May be corrosive to metals.
H300	Fatal if swallowed.
H301	Toxic if swallowed.
H302	Harmful if swallowed.

Sigma- MSMLS06

Page 46 of 48

- H310 Fatal in contact with skin.
- H314 Causes severe skin burns and eye damage.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H331 Toxic if inhaled.
- H332 Harmful if inhaled.
- H335 May cause respiratory irritation.
- H341 Suspected of causing genetic defects.
- H351 Suspected of causing cancer.
- H361d Suspected of damaging the unborn child.
- H373 May cause damage to organs through prolonged or repeated exposure if inhaled.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.
- H411 Toxic to aquatic life with long lasting effects.
- H412 Harmful to aquatic life with long lasting effects.
