## ThermoFisher SCIENTIFIC

### Number. 725-2520

**Nalgene™ Syringe Filters, Sterile PES Membrane, 0.2 μm**

Diameter (Metric)	25 mm
Filter Type	Membrane
For Use With (Application)	Sterilization and clarification of cell culture media, serum and additives
Green Features	Fewer resources used and less waste
Housing Material	Polypropylene (Housing)
Quantity	50
Type	Syringe Filter
Material (Membrane)	Polyethersulfone
Pore Size	0.2 μm
Sterility	Sterile
Volume (Metric)	10 to 100 mL (Sample)
Unit Size	Case of 50

### Number. 725-2545

**Nalgene™ Syringe Filters, Sterile PES Membrane, 0.45 μm**

Diameter (Metric)	25 mm
Filter Type	Membrane
For Use With (Application)	Sterilization and clarification of cell culture media, serum and additives
Green Features	Fewer resources used and less waste
Housing Material	Polypropylene (Housing)
Quantity	50
Type	Syringe Filter
Material (Membrane)	Polyethersulfone
Pore Size	0.45 μm
Sterility	Sterile
Volume (Metric)	10 to 100 mL (Sample)
Unit Size	Case of 50

**Price (THB)**  
**2,500**  
(excluding vat)
